The partnership in action

HCRG Care Group is one of the UK's leading independent community health and care service providers. With 4000 permanent employees and around 1000 contingent workers, spread across over 300 sites around the UK, they need systems that join up to provide the best outcome for every employee.

They've made use of MHR's payroll systems and RLDatix's workforce management solution, Optima. One key benefit has been removing duplicated data and as a result, 25,000 timesheets were removed, saving £800,000 annually.

Improved absence management and boosted payroll accuracy has led to a 5% reduction in agency spend, as rosters can be approved on time with no last-minute panics about having the coverage required for compliance.

This also ensures that everyone at HCRG has a joined-up approach to data.

Key benefits

- A system that combines workforce management with payroll has led to unprecedented financial wellbeing and empowerment among employees
- A simple-to-administer system that didn't add to HR or payroll workloads
- Simplified rostering thanks to an intuitive user interface
- Improved payroll accuracy thanks to automation
- Reduced fire-fighting by ensuring the right people are in the right place at the right time
