Payroll Processing Services for UK Export Finance
Introduction

UK Export Finance (UKEF) employs more than 400 people and are the UK’s export credit agency.

They chose to use MHR’s part-managed ‘Payroll Processing Services’ to improve their accuracy, flexibility and reduce time spent on admin to free up their team.

What stood out to them was MHR’s degree of professionalism and understanding of what UKEF do, as well as the value and benefits they could receive.

“We were looking for a system that was more fit for purpose. Not only was the system robust but it also delivered exceptional value for money. It was why we chose MHR as our vendor of choice.”

John Thompson
Head of Pay and Resourcing
UK Export Finance
Payroll Processing Service

Using the Payroll Processing Service, MHR delivers UKEF payroll using an agreed payment schedule tailored to their exact requirements.

The automation included in the service ensures high levels of accuracy, and gives UKEF confidence, assuring their risk management team that payroll will be run on-time, every month.

“It gives our CEO satisfaction that we are compliant in all that we do.”

The benefits of a part-managed service ensure that UKEF remain in control of their data, whilst MHR take away the processing burden.

“We still have control of the inputs to the system for the team to use and having a proactive tool allows us to make changes and add new elements.”

“Having a smart system makes our life a lot easier with information at your fingertips. We have to prepare a lot of reports to other parts of the civil service particularly the cabinet office and the preparation of these reports takes up valuable time. Now, a complex report which previously took me 2 days to prepare, takes me less than half a day.”

Simon Ford
Senior HR Adviser
