

MHR

# **CENTRAL GOVERNMENT HR, PAYROLL & FINANCE MADE EASY**

TRUSTED, TAILORED PUBLIC  
SECTOR SOFTWARE SOLUTIONS

---

**“THE (MHR) TEAM KNEW THEIR STUFF AND WERE ON POINT, PROVIDING ON-THE-SPOT ANSWERS TO OUR QUESTIONS. THE MHR STRATEGIC REVIEW EXERCISE HAS CREATED AWARENESS WITH THE SENIOR AND CORPORATE LEADERSHIP TEAM OF WHAT ITRENT IS AND HOW IT FITS AS AN IMPORTANT COG WITHIN THE WIDER TRANSFORMATION PROGRAMME WITHIN COMPANIES HOUSE”**

**Charlotte Newman-Ford**  
Head of Workforce Planning,  
Companies House

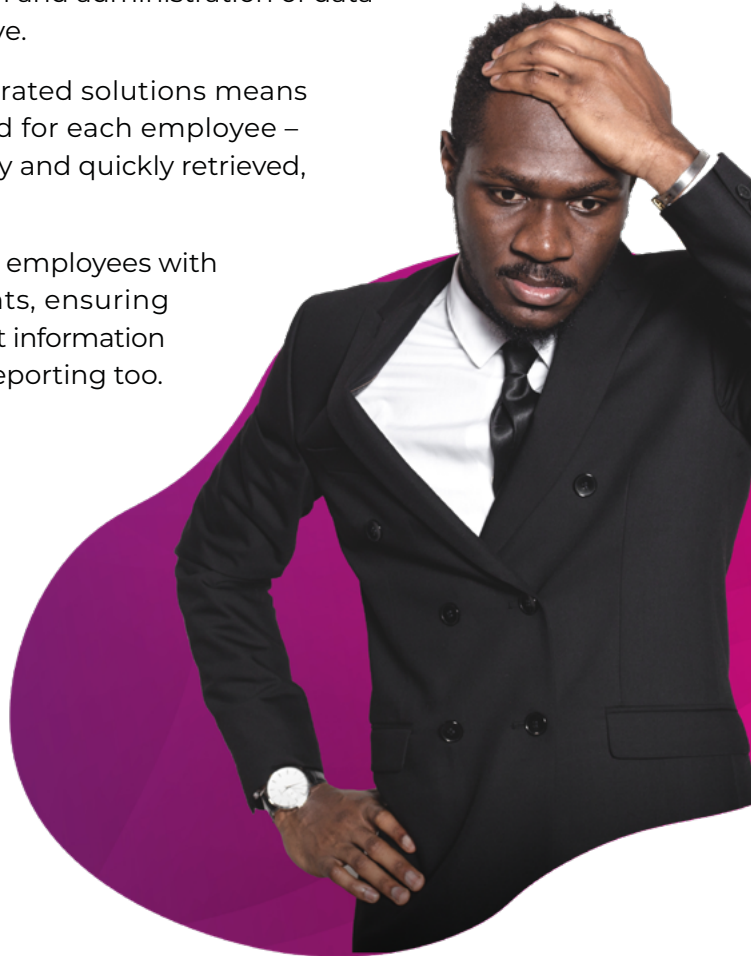

# MULTIPLE, TIME-CONSUMING SYSTEMS A HEADACHE?

Separate systems for HR, payroll, finance and talent management make the organisation and administration of data complex and expensive.

Our portfolio of integrated solutions means having a single record for each employee – a record which is easily and quickly retrieved, viewed and updated.

Our solutions support employees with multiple employments, ensuring accurate management information every time and easy reporting too.

**ONE RECORD,  
ONE SOURCE  
OF TRUTH**

# PAYROLL AND MyCSP PENSION SCHEME MANAGEMENT SIMPLIFIED

Central government payroll and MyCSP pension scheme management is complex and time-consuming. Central government departments need a provider that can implement and deliver payroll in just a few months.

Our in-house team of CIPP/iPASS professionals will save you time and increase the accuracy of payroll processing at your organisation.

We will also manage complex pay and pension schemes while maintaining a historical archive of readily accessible, digestible information.

**DELIVERING PEACE-OF-MIND AROUND PENSION SCHEME MANAGEMENT AND RETURNS**

# CHOOSING THE RIGHT PARTNER

Procuring software is a minefield – do you choose a single system from one supplier, or source half a dozen different, best-of-breed providers?

We offer the best of both worlds as a long-established, UK-based, privately-owned company which invests heavily in the development of its market leading software portfolio.

First-class implementation, superior customer service and continuity in ongoing support illustrates why 98% of our customers renew.

**ERP CAPABILITY  
WITHOUT THE ERP  
COST OR COMPLEXITY**

# DO DATA SECURITY CONCERNS KEEP YOU AWAKE AT NIGHT?

Cyber threats are increasing and becoming more sophisticated. Hackers now target organisations large and small across different sectors. In addition to the cost of fixing a successful breach, there's the reputational damage and possible fines to consider.

Trying to manage this ongoing concern diverts you from other tasks, projects and organisational needs.

Our robust, industry-leading security measures provide you with peace-of-mind regarding any cyber threat or data security concerns. We can manage your legislative and compliance obligations too.

**REDUCE THE RISK,  
RELIEVE THE PRESSURE**

# EMPLOYEE ENGAGEMENT AND RETENTION A PRIORITY?

Finding the right people is a challenge. And so is keeping them – with engagement key to retaining good people. The pandemic compounded things with a big shift to hybrid and remote working – which, post-lockdowns, has continued to a large degree.

We provide HR solutions that smooth the recruitment journey – from initial phases where multi-posting simplifies advertising through hiring and onboarding, giving candidates a unique, positive experience whether they're remote or in-person.

And we don't just support your people but help you drive ongoing communication which is key to engaging with an often-dispersed workforce.

**ENABLING EFFECTIVE  
RECRUITMENT AND  
RETENTION**

**“HAVING A SMART SYSTEM  
MAKES OUR LIFE A LOT EASIER  
WITH INFORMATION AT YOUR  
FINGERTIPS. NOW, A COMPLEX  
REPORT WHICH PREVIOUSLY  
TOOK ME TWO DAYS TO  
PREPARE, TAKES ME LESS  
THAN HALF A DAY”**

**Simon Ford**

Senior HR Adviser,  
UK Export Finance

## HELP IS A PHONE CALL AWAY

Talk to our dedicated government HR, payroll and finance experts and discover why we're the chosen payroll provider for so many public sector organisations. Our tailored solutions will help you:

- Reduce operational complexity
- Process payroll accurately, on time
- Automate important processes
- Manage complex and varied HR, payroll and finance needs at your organisation
- Save you time and money – freeing-up team members to work on other tasks and projects
- Ensure you are up-to-date and compliant with all legislative requirements
- Relieve you of Excel spreadsheet overload and any question marks over data validity
- Streamline recruitment and onboarding processes
- Improve overall employee engagement and experience
- Improve reporting capabilities
