

iTrent recruitment

Streamlined hiring. Fully connected. Built for you.

iTrent Recruitment modernises the way organisations attract and hire talent with a fully connected module built into the iTrent platform. It streamlines complex processes, strengthens compliance, and empowers recruiters to focus on making great hiring decisions.

Why iTrent Recruitment?

A connected recruitment experience

Bring recruitment and HR together in one place. iTrent Recruitment links vacancy creation, candidate management and onboarding directly to your iTrent data, removing duplication and giving you a single, accurate version of the truth.

Designed to reduce manual work

Automation handles the repetitive tasks - from templated requisitions to bulk actions and automated reminders - cutting admin effort and helping teams move faster.

Built-in compliance you can trust

Mandatory checks, right to work verification and automated triggers ensure no candidate progresses without meeting essential requirements, protecting your organisation throughout the hiring process.

Flexible workflows that fit how you hire

Every organisation hires differently. With configurable workflows, templates and approval routes, iTrent Recruitment adapts to your processes - no matter how simple or complex.
